To our customers,

Circuits, LLC certifies to the best of its knowledge and belief, that manufactured products conform to the RoHS II Directive 2011/65/EU. In addition, we declare that no restricted materials are used, or byproducts generated, during production unless specified by customer design and requirements. Compliant products have less than 0.1% by weight each of lead, mercury, hexavalent chromium, PBB, and PBDE, and 0.01% by weight of cadmium. In situations where a customer specified material is used, the limits, corresponding to the exempted substance(s), may be higher.

Circuits, LLC Shall notify the customer immediately should it be aware of any error or change which would affect the validity of this certificate of compliance.

Donald Anderson
Quality Assurance Manager
